

56. (amended) A method according to claim 54 wherein the pharmaceutically or cosmetically acceptable excipient is hyaluronic acid or salts or derivatives thereof.

Please add the following new claims.

60. The method of claim 28 wherein the active enamel substance is administered to non-mineralized tissue.

61. The method of claim 60 wherein the non-mineralized tissue to which the substance is administered is a graft.

62. The method of claim 28 wherein the active enamel substance is applied to non-mineralized tissue.

63. The method of claim 28 wherein the non-mineralized tissue to which the substance is administered is a graft.

64. The method of claim 28 wherein the active enamel substance is selected from mixtures of said substances and from mixtures of derivatives of said substances.

REMARKS

Applicants appreciate the apparent indication of allowable subject matter, i.e. that dependent claims 29-35 are merely objected to.

Claims 28, 41, 42, 55 and 56 have been amended, and claims 60-65 have been added. New matter has been added. For instance, support for the amendment of claim 28 and the new claims appears e.g. at page 2, lines 3-5 and 13-15 and original claims 2 and 30-31 of the application.
